FOR GEN III computers to achieve 275-280 kw a good exhaust is recommended (cat back) All calibrations will benefit from exhaust & induction mods. Optimax are supplied as is. While we guarantee that they work we will not be responsible for how you treat your vehicle Power figures are approximate only & will display variations in different cars & using different fuels etc. **NOTE: ALL CHIPS ARE CHANGE OVER. GEN III COMPUTERS MAY BE BOUGHT OUT-RIGHT.**
